

Squirrel Monthly Income Fund

30 September 2025

The Squirrel Monthly Income Fund ('Fund') seeks to generate competitive and regular income from a diversified portfolio of NZ loans secured by registered first mortgages on residential property. Squirrel focuses on mortgage lending to select market niches where investors can expect to earn attractive returns from carefully qualified borrowers with residential property as security.

Performance and market commentary

The Squirrel Monthly Income Fund returned **0.58%¹ in September 2025**, bringing its **1-year return to 6.90%¹** and its **3-year annualised return to 7.29%¹**, with no negative months over that period. The Fund offers investors competitive stable monthly income by providing flexible, competitive funding solutions for NZ's housing market.

The Fund's portfolio is diversified across **368 loans**, including **277 construction loans** and **91 home loans**. Its exposure is managed via the **Squirrel Wholesale Construction Loan Fund (74.33%)** and the **Squirrel Wholesale Home Loan Fund (25.24%)**, with **0.43% held in cash**. The portfolio's **Loan-to-Value Ratio (LVR)** remains conservative at **59.75%**.

At month-end, the Fund was invested (**\$849,017 or 2.16%**) in **two over-term home loans**. One is expected to be repaid in November, and the other will be repaid when the property sells. The Fund is invested in **18 construction loans (totalling \$3,593,474 or 2.82%)** that are either over-term and/or in arrears, or both.

Since month-end, **three loans (\$536,588 of fractional investment or 0.42%)** have been repaid. Another **six loans (\$1,263,577 of fractional investment or 0.99%)** are expected to be repaid during October or November, with the remaining **nine loans (\$1,793,307 invested or 1.41%)** to be repaid through property sales.

The recent reduction in the Official Cash Rate (OCR) to 2.50% is expected to provide continued, moderate support to the residential property market. While the average "days to sell" fell to 44 in September – an improvement from 50 a year earlier – it remains slightly above the long-term average of 40 days. The sales-to-inventories ratio, a reliable leading indicator of housing market momentum, has been tracking sideways, suggesting a steady market outlook through to the end of the year (ANZ New Zealand Property Focus, October 2025). We expect the anticipated 0.25% OCR cut in November 2025 to reinforce this trend and contribute to modest price growth during 2026. Overall, this balanced market environment is likely to benefit developers, investors, and first-home buyers alike, creating ongoing lending opportunities for our Investors and Funds.

Investment objectives and strategy

The Fund's investment objective is to provide an annual return, after fees and before tax, that **outperforms the 1 Year New Term Deposit Rate (>\$10k) by a margin of 2.00%**¹. The Fund combines Squirrel's real estate lending expertise into a convenient, tax-effective form where investors receive returns from a diverse portfolio of home loans and residential construction loans with first ranking security against residential property. Squirrel is the Investment Manager and the Fund invests in the Squirrel Wholesale Home Loan Fund and the Squirrel Wholesale Construction Loan Fund. Squirrel actively manages the Squirrel Wholesale Funds' loan exposure through Squirrel's peer-to-peer ("P2P") platform.
