

Squirrel Monthly Income Fund

31 October 2024

The Squirrel Monthly Income Fund ('Fund') seeks to generate competitive and regular income from a diversified portfolio of NZ loans secured by registered first mortgages on residential property. Squirrel focuses on mortgage lending to select market niches where investors can expect to earn attractive returns from carefully qualified borrowers with residential property as security.

Performance and Market Commentary

The Squirrel Monthly Income Fund earned a return of 0.57%¹ in October 2024, with a 1-year return of 7.49%¹. The Fund has delivered a 3-year annualised return of 6.79%¹ without a single negative month – demonstrating its value to investors as a reliable source of income generation and capital preservation. The return compares very favourably with the Conservative and Moderate risk funds available to New Zealand investors over the three year period. Thank you for your investment in the Fund, and allowing us to successfully deliver flexible and competitive funding solutions for NZ's housing market.

The Fund's investment portfolio is diversified across 203 loans, comprising 157 construction loans and 46 home loans. The Fund's investment exposure is managed through the Squirrel Wholesale Home Loan Fund (24.35%) and the Squirrel Wholesale Construction Loan Fund (71.86%).

The Fund has exposure to six loans totalling \$612,454 (1.42% of the Fund) that are over term. Four of these loans are expected to be repaid from the sale of the related properties, and two through refinancing over the next two months. The Fund has exposure (\$360,374 or 1.20% of the Fund) to one construction loan that is in default. Squirrel is managing the completion of the build which we expect to be completed during Q1 of 2025, with the house sold by 30 April 2025. The Fund will continue to make progress payments to fund the project through to its completion. This loan, along with the Fund's other loans, is secured by a first mortgage with Reserve Fund protection. The Fund will therefore continue to receive monthly interest payments until the loan is repaid with any potential loss underwritten by a reserve fund.

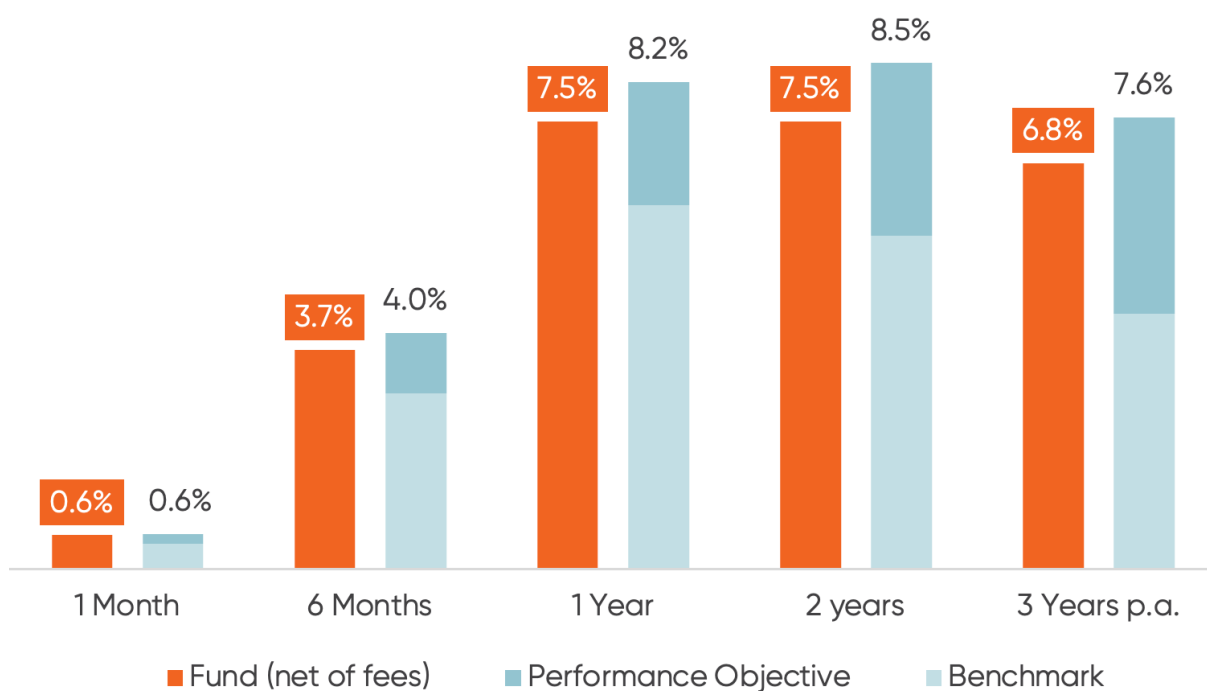

The RBNZ is expected to follow October's rate cut with another 0.50% cut in November which would bring the OCR to 4.25% before Christmas. While this is positive news for developers and home buyers, investors continue to see their interest income soften. Investors can however be assured of Squirrel's continued commitment to achieving the Fund's objective of outperforming bank one-year term investment rates by a margin of 2.00%.

Investment objectives and strategy

The Fund's investment objective is to provide an annual return, after fees and before tax, that **outperforms the 1 Year New Term Deposit Rate (>\$10k) by a margin of 2.00%**¹. The Fund combines Squirrel's real estate lending expertise into a convenient, tax-effective form where investors receive returns from a diverse portfolio of home loans and residential construction loans with first ranking security against residential property. Squirrel is the Investment Manager and the Fund invests in the Squirrel Wholesale Home Loan Fund and the Squirrel Wholesale Construction Loan Fund. Squirrel actively manages the Squirrel Wholesale Funds' loan exposure through Squirrel's peer-to-peer ("P2P") platform.
